

Technical drawing of a roof structure detail, showing a cross-section of a roof with insulation, rafters, and a roof covering. The drawing includes dimensions and labels for various components:

- Roof Covering (1):** Indicated by a line pointing to the outermost layer.
- Insulation (2):** Indicated by a line pointing to the layer below the roof covering.
- Structural Elements (3, 4, 5, 6):** Various components of the roof structure, including rafters and supporting elements.
- Dimensions:**
 - 1300 (Length of a structural element)
 - 1200 (Length of a structural element)
 - 800 (Length of a structural element)
 - 2000 (Length of a structural element)
- Labels:**
 - $\text{Ø}2 \times 76/250$ (Diameter and length of a structural element)
 - Atzarojums N13 (Roof covering material)
 - $\text{Ø}2 \times 114/355$ (Diameter and length of a structural element)
 - $\text{Ø}2 \times 60/225$ (Diameter and length of a structural element)
 - Rūp.izol.vārsts (Roof insulation)

Technical drawing showing a cross-section of a reinforced concrete structure, likely a beam-column joint. The drawing includes dimensions and labels for components and materials.

Dimensions:

- Top horizontal dimension: 11.78
- Left vertical dimension: 11.12
- Central vertical dimension: 500
- Right vertical dimensions: 76, 300, 150, 600, 100, 200

Labels and Components:

- 4: Top horizontal reinforcement bar
- 3: Top horizontal reinforcement bar (detailed view)
- 5: Central vertical reinforcement bar
- 6: Reinforced concrete column
- Ø2x60/225: Reinforcement bar specification (detailed view)
- betons kl.C-16/20: Concrete specification
- noblietētas šķembas: Corrugated mesh reinforcement
